KIRBY: GENESIS DRAGONSbane

For almost as long as human culture has existed, so has mythology. All over the world, humankind has created gods and myths, fantastic worlds and superhuman beings, epic quests and grand adventures. The Norse, the Mali, the Navajo, the Greek, the Hindu, the Japanese, the Celtic, the Roman.... all these and scores of other cultures have contributed to the mythic tapestry.

But what if all those myths were not only equally valid, but co-existed in a single magical landscape?

Welcome to the world of *Dragonsbane*.

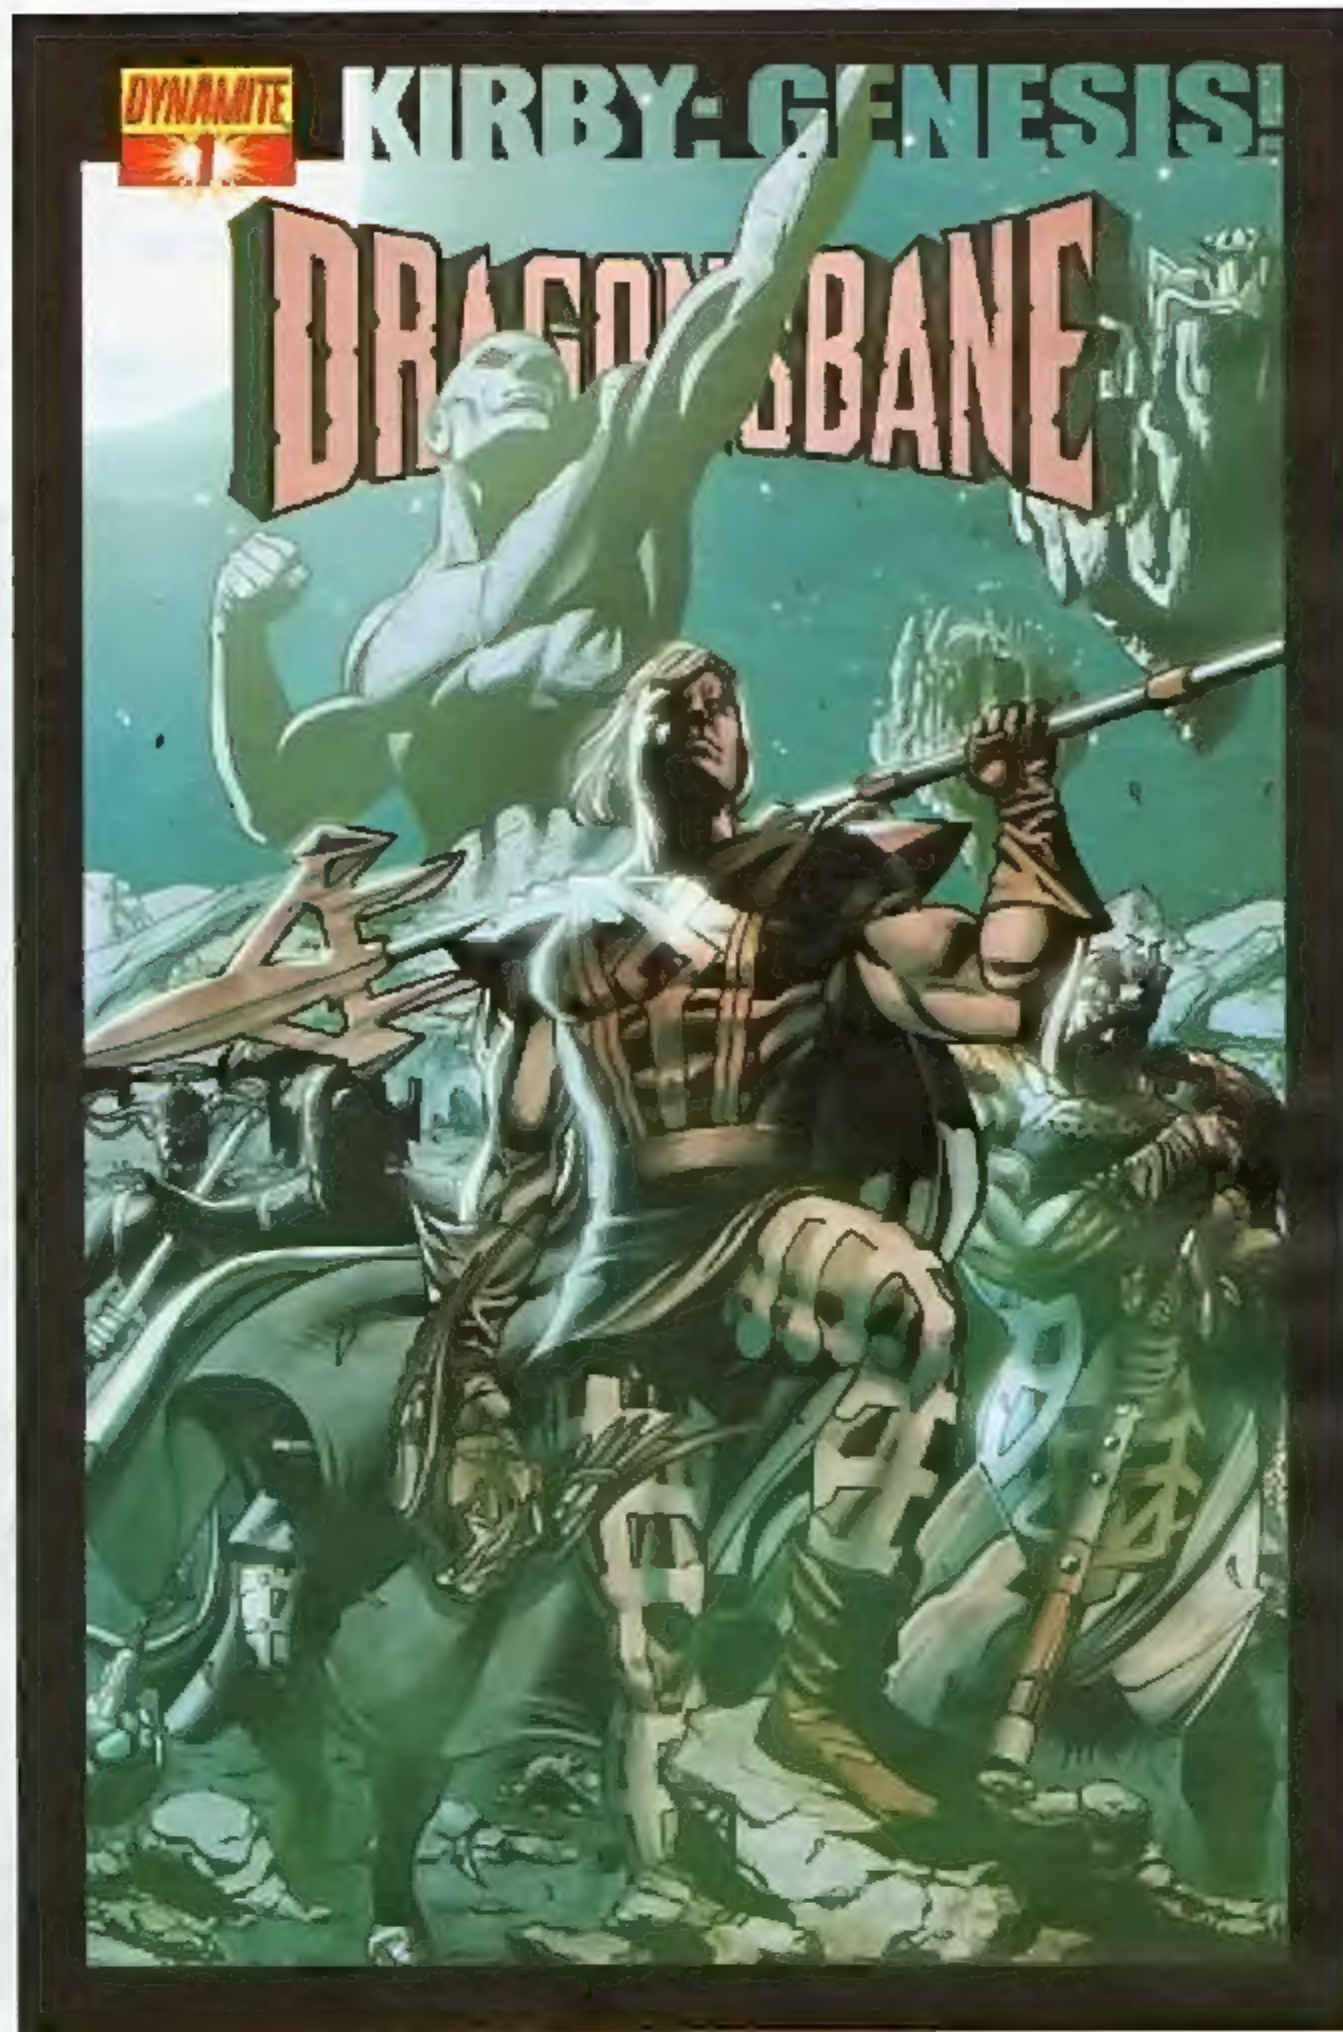

The latest addition to their growing Kirby: Genesis line, *Dragonsbane* is inspired by and drawn from Jack Kirby's lifelong love of all things mythic. Of course, fans of Kirby's work already know of his mythological fascination: from Thor to Hercules to the Inhumans to the Eternals to the Fourth World saga, Kirby returned to the mythic well many times throughout his career. Sometimes he kept the mythological beings, sometimes he populated the mythic structure with heroes of his own making—but when Kirby wasn't retelling myths, he was remaking them.

With *Dragonsbane*, Dynamite and writer Rob Rodi follow in Kirby's footsteps, venturing back into the realm of the mythic. The hero of the book is Sigurd Dragonsbane, the greatest champion in all Valhalla. But Sigurd's worldview is shaken when he and his colleagues—wise Balduur, rakish Honir, and caustic Heimdall—discover that Valhalla isn't the only mythic realm. Instead, all the realms are connected in one vast and mythic landscape—and it's up to Sigurd and friends to travel through them to rescue a princess beset by dragons. But all isn't as it seems in the newly unified Mythlands...

In *Dragonsbane* Kirby's love of mythology is not just taken to the next level, it's dialed up to eleven," writer Robert Rodi said. "All the mythic realms of every culture co-exist in one geographical space: the Mythlands. This is something new for them, and we'll be exploring it with them. In our first arc alone, we cross from the Norse and Graeco-Roman into the East European and Persian territories—collecting characters all along the way. It's definitely a wild ride."

Does *Dragonsbane* also encompass elements of legends, epics, and fairy tales?

Folklore and oral traditions are definitely part of the mix," Rodi

Dragonsbane: Don't Myth It!

said. "The Eastern European Mythland, for example, isn't a place of heroes and quests; it's home to darker, more frightening things. You'll get a glimpse of some of them. And one will join the cast."

Heimdall, Balduur, Honir... there are some familiar names in here. How do these characters differ from that other Norse-mythology-influenced series that Kirby co-created? "The names may be familiar, but the characters are different," Rodi explained. "Our

Heimdall isn't the guardian of the Rainbow Bridge; he's Sigurd Dragonsbane's protective older brother. And our Balduur is a different character entirely from Thor's Balder (though he has at least one thematic connection to the ancient Norse source figure). The major difference between the two series is that *Thor* is about the Norse gods, while *Dragonsbane* is about the Norse heroes. Our setting is Valhalla, not Asgard."

Kirby obviously had an affinity for the Norse—he did several stories for DC and Marvel featuring Thor prior to the Thunder God's superheroic debut in *Journey Into Mystery* #83. What made Norse mythology so appealing to Kirby, when most people were far more familiar with Graeco-Roman mythology in the 1950s and 1960s? "Probably that very familiarity is what decided him," Rodi said. "He was always looking for something new, something untapped. And in the '50s and '60s, most people's idea of Norse mythology was of enormously fat people in horned helmets standing stationary on a stage and singing. He got to reinvent all that—to invest it with all his dynamism and vitality."

Is there any comparison between *Dragonsbane*'s handling of mythology and Bill Willingham's *Fables*' handling of fairy tales and fables? "Not really," Rodi said. "In *Dragonsbane*, the Mythlands have been static all this time—for example, Valhalla is exactly the way Valhalla has always been in our cultural imagination. Heroes swaggering around, jousting and wenching... same with all the other Mythlands. Now they've looked up and seen each other across their borders; and it remains to be seen what effect they have on each other. I doubt the new set-up will be without its frictions."

Are Rodi and artist Fritz Casas going for an archetypal mythic look, or are you instead attempting to invoke the more Kirby-esque view of myth? "This is a Kirby: Genesis spinoff, featuring Kirby characters and concepts, so there's your answer right there!" Rodi said with a laugh. "That said, I think over the course of his career Jack redefined what you call the archetypal mythic look—to the point where that look would seem awfully static and archaic if it were ever used today. Kirby invested it with such energy and immediacy; it really belongs to him now—one of his many legacies."

Does *Dragonsbane* take place entirely in Mythlands, or does the story cross over into human realms as well? "We cover the Mythlands for our first arc, but of course Earth can't be far behind. The culture-clash potential is just too irresistible."

Rodi offered a little background on *Dragonsbane*'s protagonists. "Sigurd Dragonsbane is our titular hero, and will remain so; he's the greatest legend in Valhalla, but also the youngest and most hot-headed," Rodi said. "He's got to be occasionally checked by his older brother, Heimdall and his warrior colleagues. As for their quest...well, exploring the Mythlands is reason enough in itself...but as it happens, the first issue conveniently presents them with a damsel in distress. (Maybe a little too conveniently...) And by the

end of the first arc, Sigurd will have a powerful and compelling reason to continue questing."

While Rodi has dealt with Norse mythology in various *Thor* projects, he stresses that this isn't in any way a *Thor* clone project. "As I said previously, we're dealing with heroes, not gods. So while I'm keeping the scope of the series epic, the scale of the characters is more human. I'm allowing them to have foibles. Sigurd Dragonsbane, for example, is much younger, brasher, and more impulsive than Thor. He rushes headlong into all kinds of scrapes. Fortunately, I'm there to get him out. I'm hoping you will be, too."

Dragonsbane marks the third Kirbyesque theme that Dynamite has explored in their Kirby: Genesis line, having begun with the cosmic in Kirby: Genesis before venturing into the superheroic in *Captain Victory* and *Silver Star*. Did Dynamite intentionally develop a plan to approach the different genres one at a time, or did it just work out that way? "A little of both," Dynamite publisher Nick Barrucci said. "Why limit ourselves when Jack Kirby's mind had no limits? Much of this came from brainstorming with Kurt Busiek and Alex Ross and Joe Rybandt and me. We had a three-day summit where we talked about the series, where the through lines could be for supporting series, and how you get from point A to Point B and eventually to point D and point H, and then the rest will continue to evolve from there. *Dragonsbane* seemed to be a natural fit. *Silver Star* and *Captain Victory* were two of Jack's most well-known properties that he owned, and we wanted to build off of the known and then we wanted to play with new creations to bring more to the world. We wouldn't have been able to do it if the story wasn't right and that's where Kurt and Alex became integral as their seeing the spin-offs supporting the main series allowed for us to approach the right creators."

"Robert Rodi happened to be the right creator for this project, just as Sterling Gates was the right creator for *Captain Victory* and Jai Nitz for *Silver Star*. We did wait until we had at least four issues in retailers and consumers hands before offering any of the spin-offs. Issue #0, #1, #2, #3 had shipped (and #4 will be in shops at about the same time as this issue of CSN) and that's when we started... I think we've presented the titles well, and it's a good roll out. We're getting good reaction and we're having success with the line."

Was the overarching story of *Dragonsbane* developed by Dynamite prior to Rodi's involvement, or is it a joint effort? "Before *Dragonsbane*, we approached Robert about a different project which he is working on—a project that we can't announce it yet," Barrucci said. "But working with him and seeing what he brought to the table led directly to a discussion of *Dragonsbane* to get his feedback."

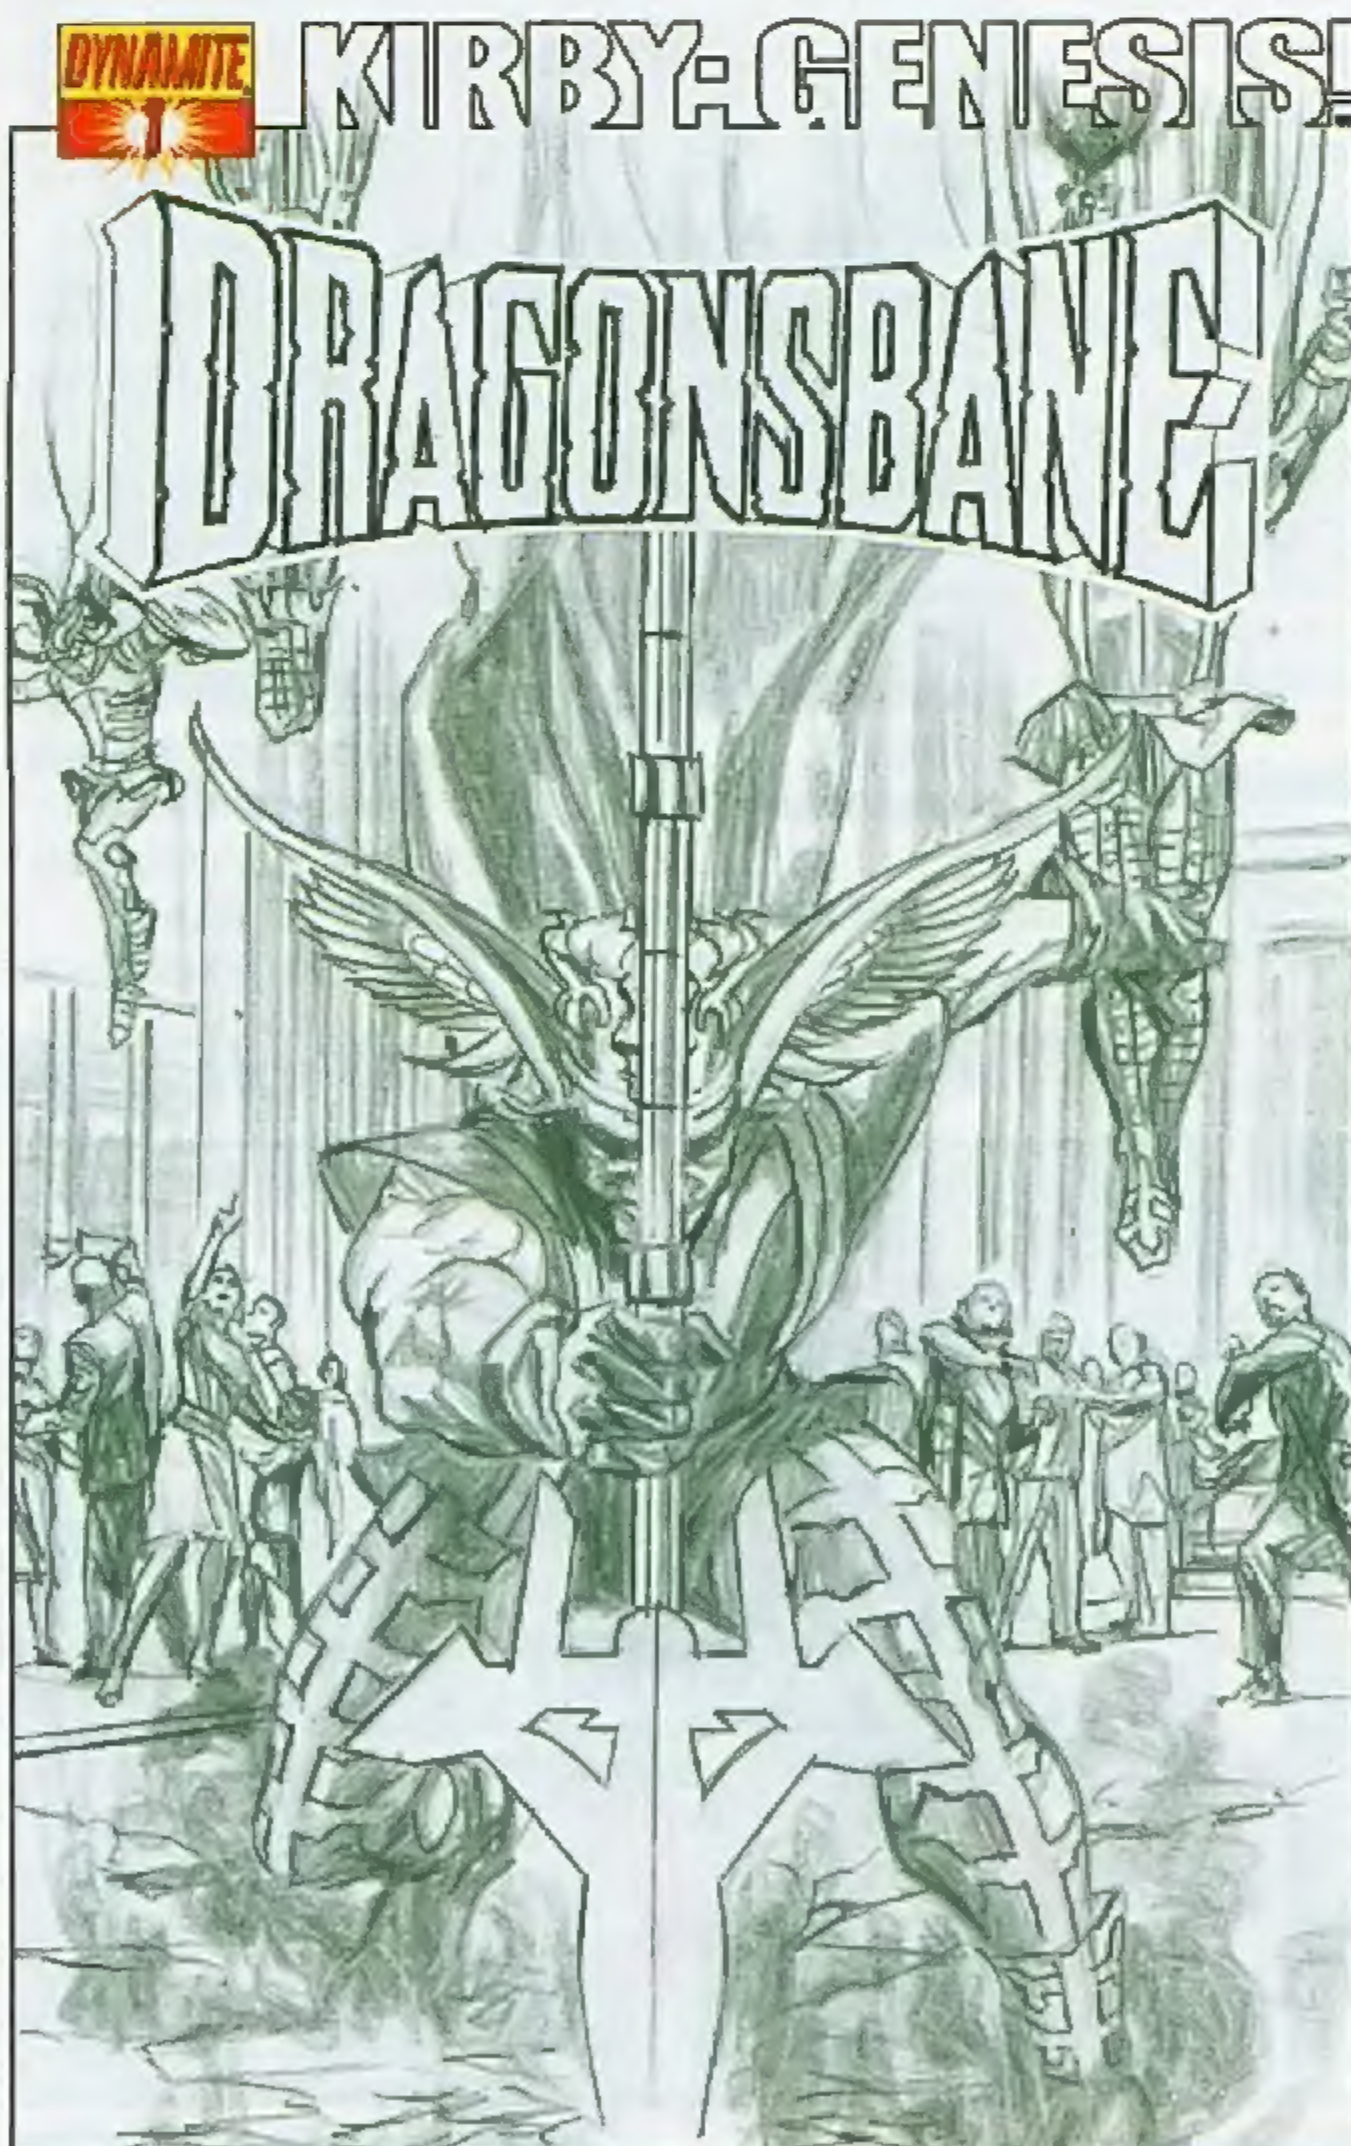

"When I brought it up to Alex and Kurt, Kurt stated that he read Robert's novels and enjoyed them, and Alex enjoyed his writing so it definitely helped put it together. But again, a lot of it was brainstorming, making it work, figuring it out. There were elements provided by Kurt and Alex, since we had the main story going and elements that Robert brought to the table. They had conference calls with Joe to move the process along, and everything just came together."

Dragonsbane seems like the sort of project where Alex Ross would go wild producing visual designs—so is he contributing more than just covers? "I think you said it all," Barrucci joked. "He's contributing the visual designs—and without them, we would have only some of the ingredients to make *Dragonsbane* work, but not all of the ingredients. Of course, Alex's designs are inspired by Jack's designs—and it all makes for great visuals, which in turn lead in to great stories!"

Kirby: Genesis—*Dragonsbane* #1, a \$3.99 comic by Robert Rodi & Fritz Casas and designs by Alex Ross, is scheduled for mid-January release. The book will be offered with a standard cover by Alex Ross, a 1-in-10 variant by Jack Herbert, a 1-for-10 negative incentive cover by Alex Ross, a 1-for-15 black-and-white incentive cover by Jack Herbert, and a 1-for-25 Alex Ross incentive sketch cover by Alex Ross.

•DC is adding new variants to their January-April new 52 releases. *Aquaman*, *Batman: The Dark Knight*, *Batwoman*, *Detective*, *Green Lantern: The New Guardians*, *Stormwatch*, *Superman*, *Swamp Thing*, *Teen Titans*, and *Wonder Woman* will all be offered with 1-for-25 covers featuring the standard edition cover in a wraparound format. *Justice League*, *Action*, *Batman*, *The Flash*, and *Green Lantern* will be offered in 1-for-200 variant editions. *Justice League* will also be offered in a 1-for-25 variant, while *Action*, *Batman*, *The Flash*, and *Green Lantern* will be offered in a variant that can be ordered in quantities equal to orders for the lowest-ordered New 52 title released that same week. And DC is also expanding its Combo Pack (print plus digital download code) offerings; there will be now be Combo Pack editions of *Justice League*, *Action Comics*, and *Batman*.

•Marvel has cancelled *All Winners Squad Band of Heroes* #s 6-8, leaving the miniseries unfinished after #5's cliffhanger ending.

•DC has cancelled all orders for the *Weird World TP*; there are no plans to resolicit.

•DC has cancelled orders for the *Noche Roja TP*. This title will not be resolicited.

•DC has cancelled orders for *The Night Force HC*; there are no plans to resolicit.

•*Superman* #3 will feature art by Nicola Scott & Trevor Scott in place of Jesus Merino.

•Graham Nolan & Trevor McCarthy replace Alessandro Vitti as artists of *Blackhawk* #3.

•*Hitman TP Vol 5: Tommy's Heroes* has dramatically expanded its pagecount; the \$29.99 volume will now reprint *Hitman* #s 23-36 & 1,000,000 in a massive 352 page tome.

Back to Press

•*Animal Man* #1 3rd Printing (SEP118094), featuring a recolored version of the original cover, in stores 11/23.

•*Brilliant* #1 2nd Printing, (SEP118074), featuring a variant cover by Mark Bagley, in stores 11/23.

•*Ghostbusters* #1 2nd Printing (AUG118203), in stores 11/23.

•*Snarked* #1 2nd Printing (AUG118218), featuring a wraparound variant cover by Roger Langridge, in stores 11/16.

•*Ultimate Comics Spider-Man* #2 3rd Printing (SEP118072), featuring a variant cover by Kaare Andrews, in stores 11/23.
